All tools, manuals, and anything else that is necessary are supplied for use during the class. We will provide rifles with prior arrangements so we know how many to bring. We prefer that students bring their own weapon systems to get familiar with their own configuration and modifications, plus this allows the time for a good thorough cleaning and inspection, plus we can replace and repair any parts necessary. This is a very intensive course that we cover in 2-days, so be prepared to get a lot of hands on knowledge.

SWAT Magazine recently featured SLR15 Rifles and Greg Sullivan "Sully" (the primary instructor for this course) as a cover story. Sully has also had numerous write ups in Guns & Ammo Magazine, SWAT Magazine, Gun & Weapons for Law Enforcement Magazine, Shooting Times Magazine, Precision Rifle Magazine, and several other publications.
