

# INTERMEDIATE INCIDENT COMMAND SYSTEM FOR EXPANDING INCIDENTS (ICS 300)

**THE NO SHOW POLICY IS IN EFFECT FOR THIS COURSE!**

October 22-23, 2008  
(16 P.O.S.T. Credit Hours)

This course provides training on and resources for personnel who require advanced application of the Incident Command System (ICS).

The target audience for this course is for individuals who may assume a supervisory role in expanding incidents or Type 3 incidents. Note: During a Type 3 incident, some or all of the Command and General Staff positions may be activated, as well as Division/Group Supervisor and/or Unit Leader level positions. These incidents may extend into multiple operational periods. This course expands upon information covered in the ICS-100 and ICS-200 courses.

The course objectives are as follows:

- Describe how the NIMS Command and Management component supports the management of expanding incidents.
- Describe the incident/event management process for supervisors and expanding incidents as prescribed by the Incident Command System (ICS).
- Implement the incident management process on a simulated Type 3 incident.
- Develop an Incident Action Plan for a simulated incident.

ICS-100 and ICS-200 courses are prerequisites for ICS-300.

This course will be instructed by Kirk Waggoner from the Park County Sheriff's office.
